

## REPORT WAREHOUSE: Application Division

### Introduction

The application section of the Warehouse is an on demand Report Execution Service. No reports are stored here on a permanent basis. Instead, the Warehouse provides you with easy access to your Report options that are also available to you in various IES Business Modules, but here you can execute them conveniently in 1 place, without having to navigate different Business Modules.

### How to get there

### Application Division of the Report Warehouse

When you enter the Application Division of the Report Warehouse, the system loads all the Business Modules you have access to.

All you have to do is to choose a Business Module in the grid and double-click on it. The system then loads a list of Report options that you have in the selected Module, and if you choose one of the options offered, then the Report is executed for you.

Note: Only Report options that appear on your Menus in the selected Module are shown. Some Reports are intrinsic functions that are connected to Screens or other objects, and those will not be offered.

 **REPORT WAREHOUSE: Application Division** 

On the right is displayed a list of Applications that you have access to.

For a list of Report options in any of these Applications, just dbl-click it.

Please Note: Some Reports are not Menu options, but intrinsic functions of Screens or other Objects. Such Reports will not be offered here.

Dbl-click an Application for a list of Report Options ...

| >>> Applications                |   |
|---------------------------------|---|
| 1 Access Profiles               | ASSET DEPR. SCHEDULE BY CODE                |
| 2 Accounting Controls           | ASSET DEPR. SCHEDULE BY DEPT                |
| 3 Accts Payable / Creditors     | ASSET DEPR. SCHEDULE BY GROUP               |

| 5 Agri Physicals Reporting      | ASSET REGISTER: FULL DETAIL                 |
| 6 Alerter                       | ASSET REGISTER: NBV DATA                    |
| 7 Auditor's Case Ware           | ASSET REGISTER: NBV DATA WITH MASTER GROUPS |
| 8 Budget                        | ASSET REGISTER: STATUS DATA                 |
| 9 Business Objects              | ASSETS DISPOSALS WITH PROF/LOSS             |
| 10 Cash Book                    | CONTROL ACCOUNTS CODES                      |
| 11 Concrete Operations          | NBV BY GROUP                                |
| 12 Consolidator                 | PROF. LOSS TOTALS BY GROUP                  |
| 13 Costing                      | ASSET CODES LISTING                         |
| 14 Crop Marketing               | DEPRECIATION CATEGORIES                     |
| 15 Customer Register (Entities) | None of These                               |
| 16 Customer Relationship Manage |   |
| 17 Electronic Xchange           |   |
| 18 Fixed Asset Register         |   |
| 19 Hospital                     |   |
| 20 Inventory                    |   |
| 21 Job Costing                  |   |
| 22 Journal Processing           |   |
| 23 Ledger                       |   |

Nex Pre

In this example, we choose the Fixed Asset Register, and the system responds with some Asset Reports.
