

Slide 1

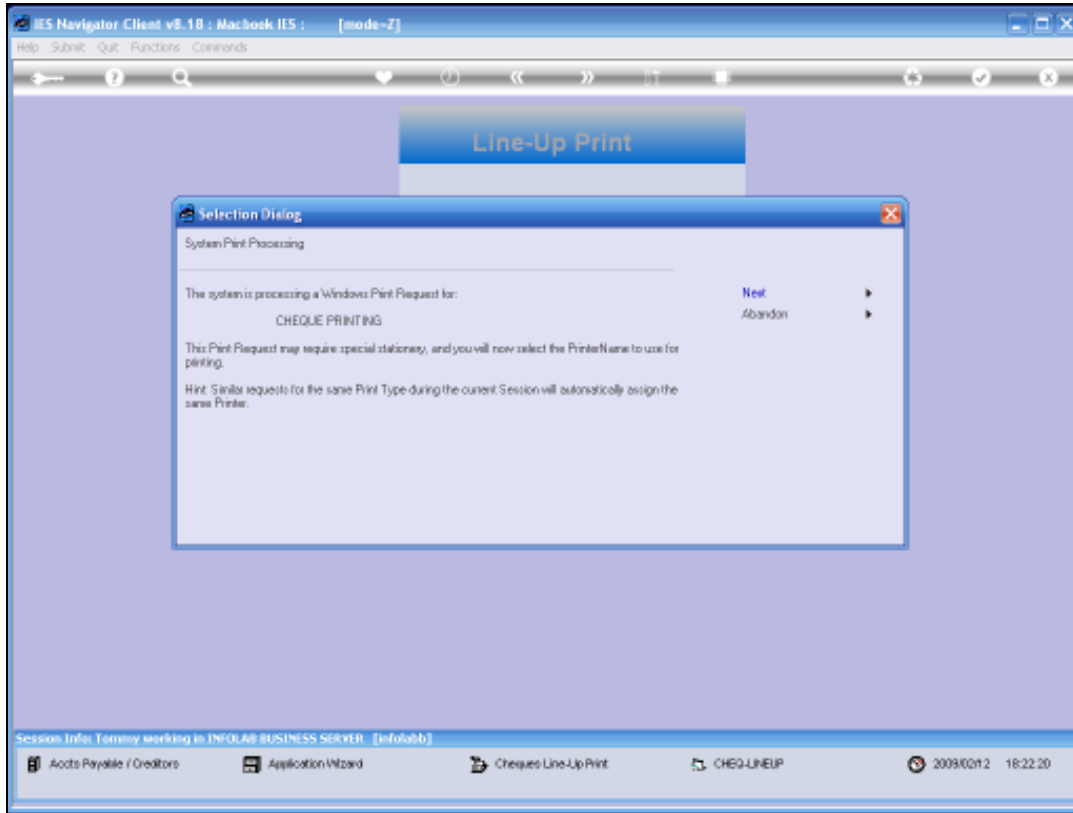

Slide notes: The 'line up sample' is used to verify that our cheque stationery is properly loaded and aligned for cheque printing.

Slide 2  
Slide notes:

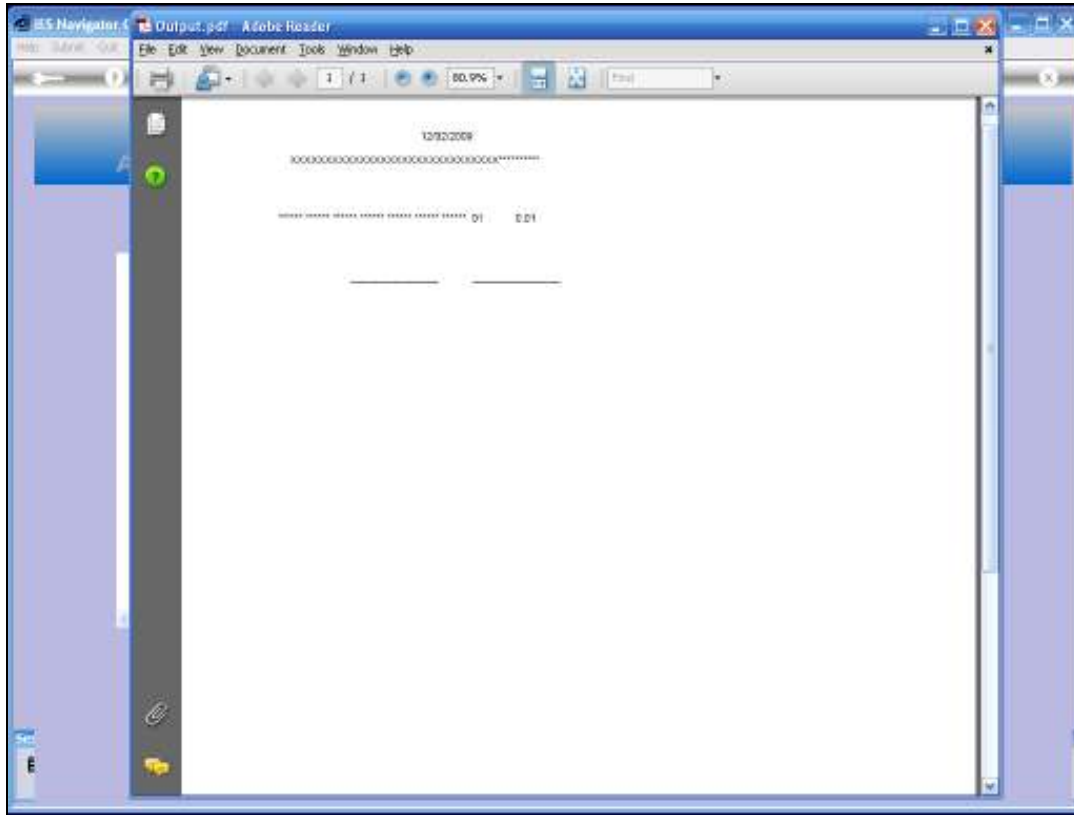

Slide 3  
Slide notes:

Slide 4

Slide notes: We will select the correct Printer to use.

Slide 5

Slide notes: And the system will send a sample (but invalid) cheque print to the printer. From this, we can verify proper alignment, even repeat the line up sample if nessary, before commencing the real cheque printing.
