

Slide 1

Slide notes: In this tutorial we take a brief look at the Enquiry options on the Stock Master files.

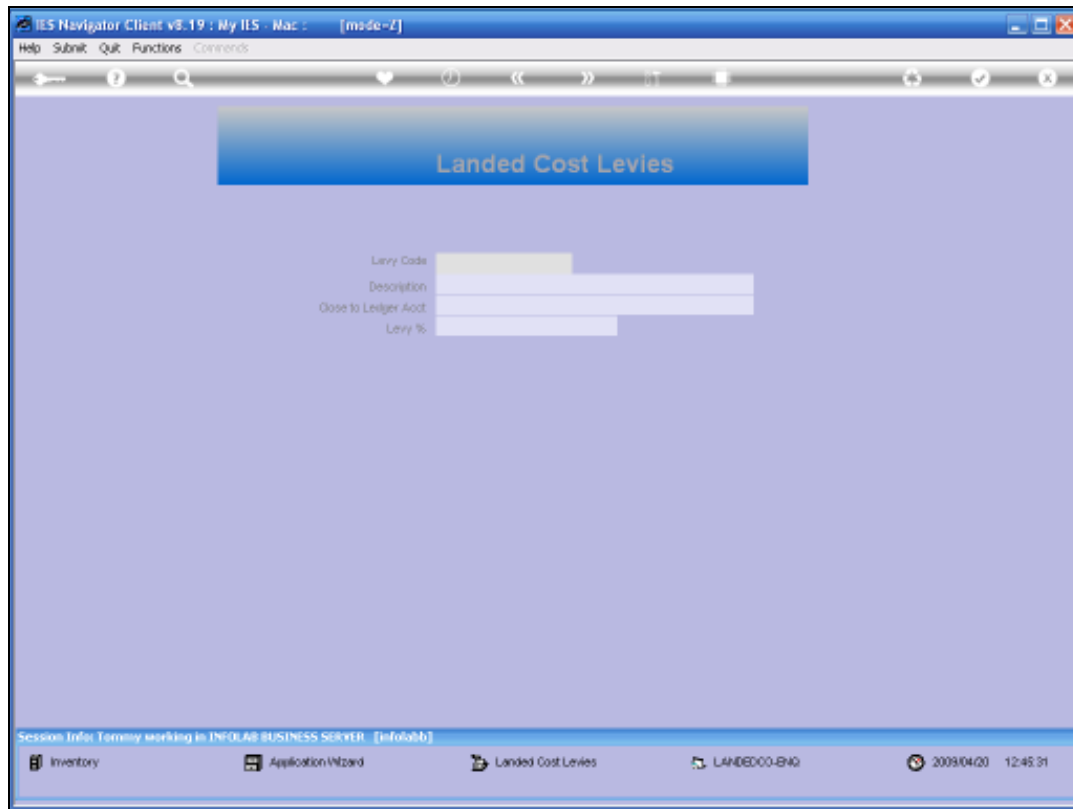

Slide 2

Slide 3

Slide notes: As a general principle we can say that the enquiry options are mirror options of the File Maintenance options. In other words, we see the same as with the File Maintenance option, but the option is 'look only' and no updates can be saved. There are some exceptions where enquiry options have distinct additional features and functions, for example the enquiry options for Stock Code, Sale or Requisition, and for the Tracking options on Batch and Serial Numbers - for these options, there are separate tutorials.

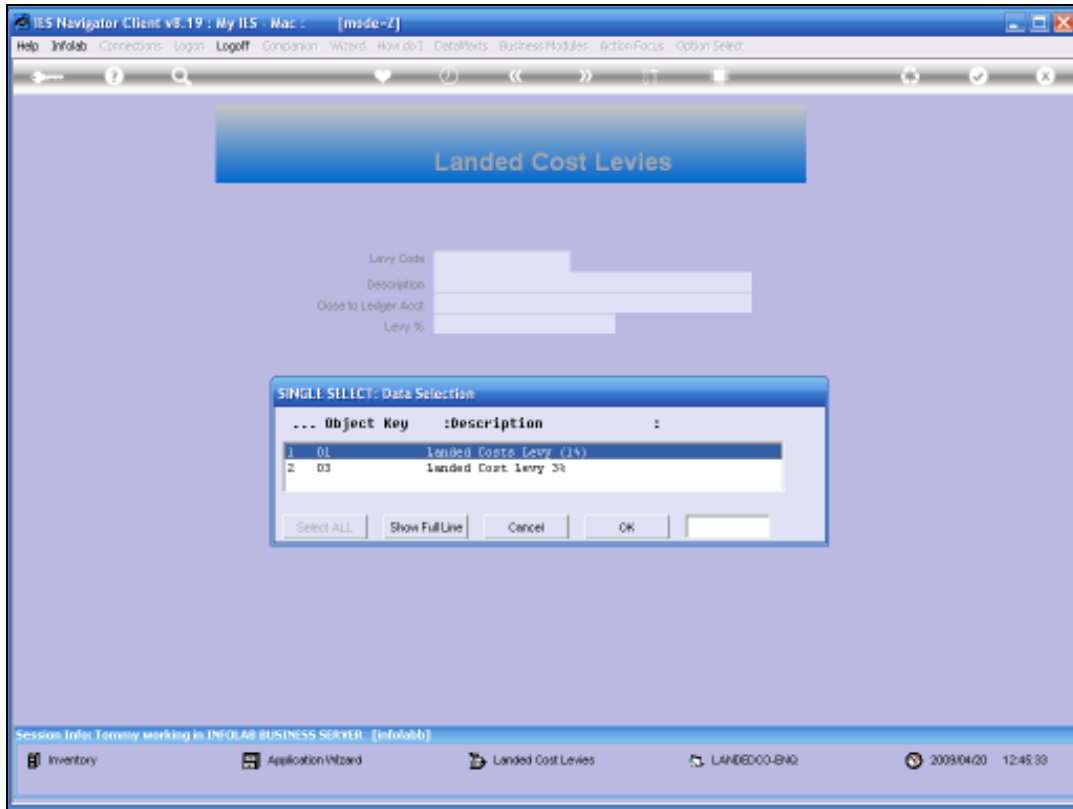

Slide 4

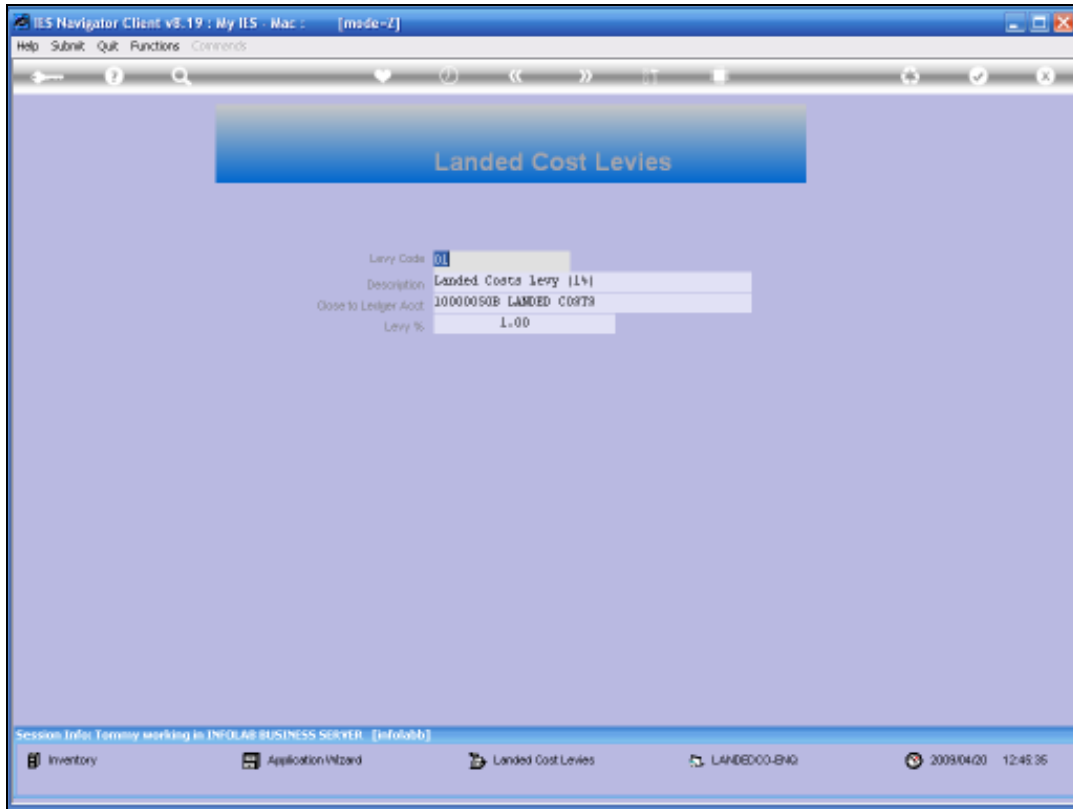

Slide notes: So we will now look at the enquiry option for Landed Cost objects, to demonstrate that it is the same as the File Maintenance option, except that it is 'look only'.

Slide 9
Slide notes:

Slide 10

Slide notes: If we try to use the Save / Update function, then the system denies the request and informs us that this is a 'look only' option.
